- Adjusted EBITDA increased 18% YoY to \$355 million
- Net Sales increased 12% YoY to \$3.1 billion
- Shipments increased 1% YoY to 807 kilotonnes
- Generated free cash flow of \$108 million

**ATLANTA, November 2, 2018** – Novelis, the world leader in aluminum rolling and recycling, today reported net income attributable to its common shareholder of \$116 million for the second quarter of fiscal year 2019, compared to \$307 million in the prior year period. Excluding tax-effected special items in both periods, the largest item being a \$318 million pre-tax gain related to the Ulsan Aluminum Ltd., joint venture in the prior year, the company reported net income of \$122 million in the second quarter of fiscal 2019, up from \$78 million in the prior year period.

The increase in net income, excluding special items, is largely due to an 18 percent increase in Adjusted EBITDA over the prior year to \$355 million in the second quarter of fiscal 2019. Ongoing efforts to optimize the investments made to increase rolling, automotive finishing and recycling capacity, combined with favorable market conditions, have resulted in higher shipments of premium products, operating cost efficiencies and favorable metal costs. Adjusted EBITDA per ton reached \$440 in the quarter, as compared to \$377 per ton in the prior year period.

Net sales increased twelve percent over the prior year to \$3.1 billion for the second quarter of fiscal 2019, driven by higher average aluminum prices, higher total shipments and a more favorable product mix. Shipments of flat rolled products increased one percent to a record high 807 kilotonnes.

"Continued strong customer demand for lightweight, high-strength aluminum has resulted in another strong quarter," said Steve Fisher, President and CEO, Novelis Inc. "Moving forward, we are focusing on safely bringing our recent automotive investments online, enhancing the way we engage with customers and leveraging our R&D capabilities in order to provide solutions that help meet their design, performance and sustainability goals."

The company reported \$108 million of free cash flow for the second quarter of fiscal 2019, net of \$60 million in capital expenditures. Year-to-date free cash flow improved \$80 million over the prior year to \$104 million driven primarily by higher Adjusted EBITDA, partially offset by higher taxes and capital expenditures.

"Our continued strong financial performance and operating cash flow generation has allowed us to strategically add capacity to capture growing demand, while continuing to improve net leverage to 2.8x at the end of the second quarter," said Devinder Ahuja, Senior Vice President and Chief Financial Officer for Novelis.

As of September 30, 2018, the company reported a strong liquidity position of \$1.7 billion.

## **Aleris Acquisition**

On July 26, 2018, Novelis announced it signed a definitive agreement to acquire Aleris Corporation. The acquisition continues to progress as expected and remains on track to close nine to fifteen months from the date of announcement, as previously communicated, subject to customary closing conditions and regulatory approvals.

On November 1, 2018, Novelis secured financing for the pending Aleris acquisition by entering into commitment letters with a group of banks to provide up to \$775 million of an incremental term loan with a five year maturity, and up to a \$1.5 billion short-term bridge loan with a one year maturity. We expect to replace the bridge loan with permanent financing soon after closing, depending on market conditions.

(A) In September 2017, Novelis Korea, Ltd, a subsidiary of Novelis, sold a portion of its shares in Ulsan Aluminum, Ltd., which resulted in a gain.

(B) Effective in the second quarter of fiscal 2019, management removed the impact of business acquisition and other integration costs from Adjusted EBITDA in order to enhance the visibility of the underlying operating performance of the Company. The impact of "Business acquisition and other integration costs", which are costs presented above associated with our pending acquisition of Aleris, is now reported as a separate line item in this reconciliation and on our condensed consolidated statement of operations. This change in presentation does not impact our condensed consolidated financial statements.

## Free Cash Flow (unaudited)

The following table shows "Free cash flow" for the six months ended September 30, 2018 and 2017.

(in millions)	Six Months Ended September 30,

(A) Effective in the second quarter of fiscal 2019, management clarified the definition of "Free cash flow" (a non-GAAP measure) to exclude the impact of cash outflows related to the "Acquisition of assets under a capital lease". This change further enables users of the financial statements to understand cash generated internally by the Company. This change does not impact the condensed consolidated financial statements or prior periods reported.
